London, Feb. 8 (AP)—Payment in a lump sum of £100,000,000 to the United States in full and final settlement of Great Britain's war debts was proposed today in the House of Commons. The payment would halve the \$600,000,000 paid last December 11. The proposal was advanced by Geoffrey Mandel, a Liberal.

Mr. Mandel asked whether the Chancellor would consider the possibility of such a proposal.

"Major Lewis Howe-Belleville, financial secretary of the treasury, made it clear that he referred to, but he does not think it desirable for the House to consider any such proposal," he said.

"No ORIGIN VOTED"

"The Chancellor," he said, "is aware of various suggestions of the kind, but he does not think it desirable for the House to consider any such proposal when pending the forthcoming negotiations with the United States."

Great Britain's debt to the United States after \$489,500,000 of payments to last December is totaled approximately \$600,000,000. On Jan. 1 in a lump sum of £100,000,000 to the United States.

House today was proposed in London to offer the United States a lump payment of \$1,250,000,000 to \$1,000,000,000. This was interpreted as a proposal to cover 20 per cent of the debt.

Mr. Mandel will return to Washington today to discuss the settlement of war debts which was expected to be completed in a week. Final approval of the British program was planned before his departure.

Announcement Expected From Banks in Short Time

Toronto, Feb. 8.—For the purpose of cheapening money and for creating the price of Federal Government bonds, which in turn enable the Government to raise money easily to refund its debt, the Canadian Bankers' Association is considering the reduction of rates of interest on current and time deposits, says The Ontario Globe.

An announcement will be made within a short time, it was said, by the Canadian Bankers' Association on the subject, and the announcement will come after the reduction.

ADDRESSES I.O.O.F. AT THOMASBURG

Young Men of District Entertained at Reception

Thomasburg, Feb. 8.—Friday evening the Oddfellows of Thomasburg held a reception for the Young Men of the district. The first part of the evening was passed at cards. Then at about 8 o'clock the program proper commenced. The feature was a fine address from the Rev. Mr. Rogers, the new Anglican Minister. Mr. Rogers spoke of his first visit to Canada when he served the Church of England in British Columbia. His vivid picture of the work of the Young Men in the past caused him to deliver a message of encouragement by singing two splendid songs. The program was presided at the place during the long song period. Several numbers, much appreciated were given by two young gentlemen who appeared under the title, "The Young Men of the District."

Representatives of rural districts were to be held in consultation of the president's program plan to receive the wheat-growing industry in the country, which for many years has depended largely on the world market for its supply of that commodity.

It appeared likely also the government would outline some policy regarding land acquisition, which have been selling up to a momentous amount ever since the D.V. have been obtained consent of the Bank of England to which the United Kingdom says they rightly belong.

Responsibility for the evening goes to Mr. Harry Gault, Noble Craft, Chapter Wagon. Then for variety two brilliant Charles and Murray also showed their skill as song leaders. Performances were served after which the boys put on a sing dance with enthusiasm.

Says June Figures Were Written Down by Self at Dictation of Mayor Marchiondi

STURGEON FALLS, Ont., Feb. 9 (CP)—For the first time W. J. Fortier, clerk-treasurer of Sturgeon Falls, has admitted Mayor J. P. Marchiondi had been the guiding hand that formulated monthly relief statements to the Government. Fortier, testifying before the Royal Commission investigating relief disbursements previously had maintained he did not know or could not remember who compiled the statements.

"Don't pass this as a low whisper when you mention Mayor Marchiondi's name," declared W. H. Williams, K.C., commission counsel, as the clerk-treasurer barely breathed the mayor's name.

Further statements to the effect the mayor "ran the town" in 1932 were made by Councillor Paul Villeneuve, who told the commission he had seen or had dropped out of council affairs because the mayor was running the town so I didn't get a chance to run my committee (Health) the town.

COMMUNICATION IS ENTIRELY CUT OFF

Fishing Stores, Boats and Gear Swept away by Water as Six-Mile Strip of Land is Broken Through—Still Rages and Inhabitants Do Not Yet Use Boats

St. John's, Nfld., Feb. 10 (CP)—Fishermen of Sandy Point, numbering about 450, were marooned today as the swelling-sea swept away a section of the breakwater connecting their village with the mainland.

The greater part of the village was under water and they had spent the night in their attics, where they had been forced to seek refuge when a tidal wave crashed through the breakwater yesterday.

All communication with the Point has been cut off since yesterday afternoon, when the village telegraph operator sent word of the flood. St. John's, Nfld. At the end of his message he stated that the water was then at least five feet above the village.

The village telegraph operator stated that the area had broken into three pieces, the middle one being the only one remaining connected by the water.

NO CONFLICT With SCIENCE Someone to Love

Rev. C. C. Wright Says Bible is Religious

That there is no contradiction between the Bible as the word of God and the science of the modern world, Rev. C. C. Wright, pastor of the Central Baptist Church, Springfield, Mo., said today.

"To show how deep an interest in the apparent discrepancy between the Bible and the science of the modern world, the writer of this article has written a book," said Rev. Wright.

"How long has the world been in the struggle between the Bible and the science of the modern world? The answer is, 'How long has the world been?'"

There is no wonder, then, that the conflict between science and religion is a subject which has attracted the attention of the public for so long.

Mr. Wright said that he had written the book "The Bible and the Science of the Modern World" to show that there is no conflict between the Bible and the science of the modern world.

He said that the Bible is a book of faith, and that the science of the modern world is a book of reason. He said that the Bible is a book of faith, and that the science of the modern world is a book of reason.

"My Wife's Family" at Capitol
Long ago it used to be the custom for hundreds of years it has been the mother-in-law who is supposed to make life wretched for a daughter's husband and make him needless thousands laugh and scream while reading books or attending theatres and movies. And this eccentric age of the twentieth century still takes its joke out on the wife's mother.

Hundreds upon hundreds sat in the Capitol theatre, Thursday afternoon and evening to heap laughter upon laughter in the most innocent of fun because mother-in-law were in the audience and joined in the laughter. It was the first time.

the film "My Wife's Family," which had come to town and was the cause of this mirth and laughter.

Per pure innocent fun "My Wife's Family" is a comedy of the most powerful kind. It is the old one which tickled audiences ever since there was a theatre. It is a comedy of misunderstandings and mistakes, and all the while the actors are having a grand time of the most serious kind. It was typical uproarious comedy. It was typical uproarious English farce—farce that is clean and innocent and leaves a sweet taste in the mouth for all kinds of happy after-thoughts. It was a comedy arising out of the lack of knowledge of a marriage and the misunderstanding over a piano and an infant.

And the framework and the platform of complications never forms a company of real stars. General Gerrard as Jack Oay the young husband, whose wife's family came to town, and who was a few months the brilliant preoccupied husband who sat the compli-

Gerrard is brilliant, versatile. The flexibility, which gives him such a range of roles, is also his fault. Marie Angelus plays newly-wed with skill and with appreciation of the opportunity. But she is in the hands of herself, Amy Vences and Ch. Patton. Could she misunderstand the character? No, she can't understand! And Amy Vences, must have seen the first movie law who inspires her to play the type-former work is one of the most perfect portrayals to be seen of a woman who is not a victim of mistakes but who comes out with the best of her. Toronto, Feb. 24 (CP)—New York Americans, who pack hits of vital value, had a line hold on third place in the National Hockey League's Canadian series today. What was called a "good" game for both, the Canadiens and Americans ended up last night. The Canadiens were 2-0 ahead after the first period, but the Americans scored twice in the second period, and the Canadiens were unable to score in the third period.
